July Training Report

Fire Trainings have been conducted with great participation from Ely Fire Department and White Pine County Fire. The Focus for July has been first actions on the fire ground and equipment and apparatus understanding.

In-house trainings offered.

Thursday 18th Hydrants, Pump operations and Hose line management

20+ attendees

Great participation at this training with 4 departments being present

McGill Fire with 2 Engines and 10+ Personnel

Lackawana Fire with 1 Engine With 2 Personnel

Ruth Fire with 1 Engine 3 Personnel

Ely Fire with 1 Engine 1 ambulance 10+ Personnel

Thursday 25th Hose lays and Fittings on specific engines or trucks

15+ attendees

Departments represented included

McGill Fire

Lackawanna Fire

Ruth Fire

Ely Fire

Hazmat class State Testing.

June 30th State Fire Marshal Testing

5 personnel passed Hazmat Awareness acquiring their state certifications

4 personnel passed Hazmat Operations acquiring their state certifications

EMS Training

Tpod pelvic binder training

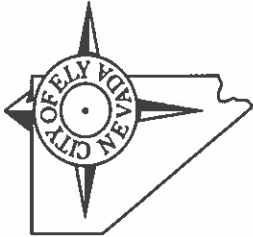

Offered at a come on your own time pace with almost every Ely Member completing the training.

IO Training July 22nd and 31st

Good participation from EMS Providers

An accelerated AEMT class will be conducted in September for 1 employee who requires their Advanced EMT certification.

This month has been great for training for the entire White Pine County community. Ely has been providing instructors and training for all departments and has had very good turn out from all departments. Training are being planned with County Fire departments to continue.

Proposal for Tree Removal at Ely Cemetery

Arbor Pros, LLC

Address: 1350 Stardust St. STE D Reno, NV 89503

Phone: 775-750-1087

Email: chayce@arborprosnv.com

Certified Arborist: Chayce Cassani

Business License: Valid City of Ely Business License

Project Reference: Nevada Division of Forestry Sub-Grant number: IRA23 24-010

Project Title: Ely Cemetery Tree Maintenance and Removal

Scope of Work: (Total staff on site=5)

1. Tree Removal

- Removal of eleven (11) large, complex trees at Ely Cemetery.
- Utilize experienced 3-man bucket crew (2019 Freightliner M2 75ft aerial lift) consisting of a Journeyman Climber/bucket operator and groundsman. All of our trucks travel with BC1000XL 12" capacity wood chippers.
- Wood management will be handled with our 2023 Peterbilt 567 Self loading grapple truck. This will allow us to pickup and transport entire sections of the trees.

2. Stump Grinding

- Grind stumps of the same eleven (11) trees to below ground level.
- Qualified equipment operator running a tracked 37HP Rayco Stump grinder.

3. Tree Pruning

- Pruning of additional trees for corrective health as determined by the Public Works Director.

Project Approach:

Pre-Project Planning

- Conduct a thorough site assessment to evaluate the condition of the trees and identify any potential hazards.
- Coordinate with the Public Works Director to finalize the list of trees for removal and pruning.

Equipment Mobilization

www.arborprosnv.com (775) 221-3827
1350 Stardust St Suite D. Reno, NV 89503

Arbor Pros has an existing contract with White Pine County for the removal and stump grinding of (7) trees at the Courthouse, 0.9 Miles away from the Cemetery. We currently plan to mobilize to Ely around the 3rd week of August for the White Pine County Project. The identical resources would be necessary for the City of Ely Cemetery project. Chayce Cassani, the owner of Arbor Pros has relationships with several locals in the Ely area that have available Air B&B's for staff. Arbor Pros would be optimistic about extending our stay a week or so to complete the cemetery project as well. The benefits here would be that the mobilization and demobilization are already factored on a separate project and would not need to be billed to the City.

- Mobilize necessary equipment, including chainsaws, stump grinders, and safety gear.
- Ensure all equipment is in excellent working condition and free of fluid leaks.
- As we are already mobilized in Ely for the courthouse project, our equipment is on-site and ready for immediate deployment.

Tree Removal Operations

- **Crew Structure:** 3-man crew will consist of a Journeyman responsible for cutting/climbing and an additional climber as well as groundsman responsible for assisting with debris management. The equipment operator that runs the Stump grinder will be on site to aid the tree crew throughout the project.
- **Tree Felling:**
 - Trees will be directionally felled and or “pieced out” to avoid damage to nearby graves and structures. Arbor Pros has worked at numerous cemeteries in the past, most recently the Northern Nevada Veterans Memorial Cemetery in Fernley, NV where trees need to be taken apart strategically, with technical rigging and care to prevent damaging grave stones and other targets.
 - The sawyer will make precise cuts to control the fall direction, and utilize rigging ropes, blocks and pulleys to eliminate free falling material when necessary.
- **Limbing and Bucking:**
 - Limbs will be removed, and trunks will be bucked into manageable sections.
 - All debris will be neatly stacked for removal or further processing.
- **Stump Grinding:**
 - Stumps will be ground to below ground level to allow for future landscaping or replanting.

Debris Management and Cleanup

- **Wood Chips:** Productive use of wood chips will be planned for the White Pine County Golf Course, as we are currently doing for the courthouse project. We will

www.arborprosnv.com (775) 221-3827
1350 Stardust St Suite D. Reno, NV 89503

already be working with the Golf Course from the courthouse job so we will follow suit and continue donating chips to the course.

- **Cord Wood Donation:** Cord wood donation can be through our existing contact from the White Pine County contract. All wood will be donated through our existing relationship which provides the wood to low income households. Wood will be transported with our 2023 Peterbilt 567 Self loading grapple truck. Based on the letter from Bill Wolf, the Chairman of the Ely Tree Board we understand there may be some special requests for large sections of trees, or the difficulty in transporting them, we feel we could offer solutions. We have the means to move large logs with the equipment, if the goal is to preserve them for future uses. On the other hand, we could also buck these logs into smaller sections to be processed easier for firewood by Randy Ewell. Lastly, if there are logs to large and not desired, we have contact with several members of the community that work for a local Hunting Outfitter that would be happy to take some logs.
- **Site Restoration:** The work area will be thoroughly cleaned, and any disturbances will be restored to their original condition.

Quality Control Plan

- **Daily Inspections:** Daily inspections by the project manager to ensure compliance with the SOW and safety standards.
- **Communication:** Regular updates to the Public Works Director to address any concerns promptly and reduce the need for Government oversight.
- **Safety Protocols:** Adherence to strict safety protocols to prevent accidents and injuries. All crew members will wear appropriate PPE.

Post-Project Reporting

- **Final Inspection:** A final inspection will be conducted with the Public Works Director to ensure all work has been completed to satisfaction.
- **Documentation:** Submission of a detailed report documenting the work performed, including before and after photographs.

Project Timeline:

Task	Start Date	End Date	Duration (Days)	Notes
Initial site assessment	08/26/2024	08/26/2024	>1	
Equipment mobilization	08/26/2024	08/26/2024	>1	Utilizing existing equipment on-site
Tree removal operations	08/26/2024	08/31/2024	6	
Stump grinding	08/29/2024	08/31/2024	3	
Pruning operations	08/31/2024	09/2/2024		
Debris management and cleanup	08/26/2024	09/01/2024	>10	
Final inspection and reporting	09/02/2024	09/02/2024	1	

Total Project Duration: 9 Days (08/26/2024 – 09/02/2024)

Bid Bond Attached in the form of a Cashier's Check \$4,100

- A bid bond, certified check, cashier's check, or cash in the amount equal to at least FIVE PERCENT (5%) of the total bid will be included with the proposal.

Compliance and Certifications

- Certified Arborist: Chayce Cassani and Gary Jentink
- Valid City of Ely Business License
- All work will comply with the minimum wage rates as determined by the Labor Commissioner of the State of Nevada.

Plans for Productive Use and Donation

- **Wood Chips:** Plan for productive use at White Pine County Golf Course or other public areas.
- **Cord Wood Donation:** Plan for cord wood donation to local charities or public use.

Conclusion Arbor Pros, LLC is committed to providing professional and efficient tree removal and maintenance services for the Ely Cemetery project. With our ongoing project at the courthouse, we are already on-site, equipped, and familiar with the local conditions. This ensures a seamless transition to the cemetery project, leveraging our existing resources and partnerships. Our experienced crew, proper equipment, and stringent quality control measures will ensure the successful completion of this project in compliance with all specified requirements.

White Pine County Request for Bid Professional ISA Certified Arborist Services Urban and Community Forestry. Ely Cemetery Tree Removal.

LG Tree Services

775-293-2570
Ely, NV 89301

From: Levi Garcia, LG Tree Services.

To: Public Works Director Mike Cracraft/City Of Ely.

Re: **COVER LETTER** for Bid response to City of Ely, Cemetery Trees. IRA23 24-010

Thank you in advance for your consideration of this bid and response to City Of Ely from LG Tree Services. We are passionate about improving the health and safety of trees in both public and private spaces, and we ensure a safe and successful project. Levi Garcia and Lisa Ortega have a combined experience of 31 years in the arboriculture profession. We feel our time and efforts to complete the project and invest our time and talents in our home and in our small town of Ely, Nevada nestled within White Pine County.

Levi Garcia is the main contact on this grant, and he will be the contact for all services executed through this project if awarded.

LG Tree Services

Contact: Levi Garcia

Telephone: (775) 293-2570

Email: [http://levigarcia372@gmail.com](mailto:levigarcia372@gmail.com)

A. Firm Qualifications:

LG TREE SERVICES was established in 2018. We are a popular company with an excellent track record. We work closely with our clients and provide them with knowledge and services that will not only keep our community safe, but provide proper care that invests in the long-term health and value of trees.

Levi Garcia: Over the years of my professional experience, I have developed skills to keep our work environment professional and safe. We have the right equipment, certified arborist class training, safety equipment and training, Tree Risk Qual training and professional relationships with the Ely community to get the job done. We pride ourselves on doing an efficient job and leaving our customers satisfied and the environment healthy.

Lisa Ortega: Qualifications include International Society of Arboriculture Board Certified Master Arborist, Tree Risk Assessment Qualified (TRAQ), Tree and Plant Appraisal Qualified (TRAQ), American Society of Consulting Arborist #675. Community connections through urban forestry include the City of Ely Tree Board.

1a. Projects completed:

LG Tree Services recent projects list (a few selected):

- White Pine County School District - Baker Hall Baker, NV. Removal of 14 elms, 2 juniper and grind 21 stumps. Remove all rubbish back to town.
We have also done tree care services for White Pine County School District annually since 2019, doing a variety of projects large and small.
- White Pine County- Veterans Park, Old Courthouse, library. Prune with some crown reduction 4 elms, 1 apple, 1 white willow, 1 cottonwood and 52 spruce trees. 3 giant stump removals (grind and plant seed). Root correction and mulch rings on 13 trees.
We have also done tree care services for White Pine County annually since 2019, doing a variety of different projects large and small.
- Duck Water Tribe - Duck Water, NV. Prune over 40 trees throughout Duck Water Tribe, near school/ playground, office buildings, parking lots, over creek/Park.
- City Of Ely - LG Tree Services has also done tree care services for the City Of Ely as needed since 2021
- LG Tree Services has done hundreds of small residential jobs annually throughout White Pine County and surrounding counties as well since 2016 with an excellent track record and very good references throughout the community.

White Pine County Request for Bid Professional ISA Certified Arborist Services Urban and Community Forestry. Ely Cemetery Tree Removal.

trees down safely/efficiently and the professional experience necessary to prune any and all trees in Ely Cemetery for corrective health. Our plan is to work with the City Of Ely officials to determine what areas are best for closure at what time, so as to not be a nuisance to the public or Ely Cemetery staff during their regular scheduled duties. LG Tree Services will also coordinate with NDOT to determine lane closure on the state highway for general safety of public and tree workers.

LG Tree Services has performed work for the City Of Ely many times and has experience working in the Ely Cemetery. We have a high amount of knowledge of the trees specified and a very professional plan of execution in order to accomplish this project safely.

D. Plan for productive use of wood chips at White Pine County Golf Course or other public uses: .

I Levi Garcia, Owner Operator/ Lead of LG TREE SERVICES will be assigned the role of project oversight and scheduling, communications, lead tree worker, administrative and safety oversight I have worked closely with White Pine County, City of Ely and NDOT in order to work safely in our community on or near our public roads and or highways. We will devise a plan with the City Of Ely to ensure community safety during all operations.

Mulch Plan: One of the best things we can do for trees in turf is to provide a mulch ring. Mulch rings, when done correctly, provide protection from mechanical damage - one of the main causes for tree decline. Mulch rings keep weed 'whackers' and lawnmowers from cutting trunks and causing soil compaction in the critical root zone area. Trees thrive with this simple application. David E. Norman also has a need for mulch to heat the school but LG Tree Services is open to any other plans the City Of Ely may have.

E. Plan for cord wood donation for charitable purposes or public use:

LG Tree Services will work with the City of Ely to ensure delivery of mulch/wood to parks where needed/wanted.

Cord wood donation has been a part of LG Tree Services plan of operation since 2016 and have donated hundreds of cords to charitable organizations all over our community.

We will work with the City of Ely to decide the highest best use for the mulch/wood deliveries.

F. Pricing:

LG Tree Services believes that we are very capable of taking on this project safely and efficiently, as it is still a very dangerous and serious project that will require a great deal of funds and time. The price will reflect,

1. Getting all parts of the tree down safely and then processing those parts.

White Pine County Request for Bid Professional ISA Certified Arborist Services Urban and Community Forestry. Ely Cemetery Tree Removal.

2. Separating the mulch from the rounds, the rounds from the rubbish, the excess of material left from grinding (11) stumps,

3. disbursement of the different products throughout our community.

With all this being said we believe that it is necessary to bid this project at \$80,000.00 to perform the work safely and efficiently. We are also willing to negotiate the price of pruning any trees that are in need of corrective health. Inclosed we will provide a 5% certified check, cashiers check, or cash in the amount of \$4000.00 as a bid bond.

I thank you very much for your consideration of our team for this project and we look forward to serving our community to the best of our abilities. Thank you for your time, and all you do for our trees and our community.
